// Experience

2004-2014 **Simplicit Solutions Ltd** Solutions Architect

I incorporated Simplicit when I departed Black Press, as I was intent upon using this vehicle to provide clients my varied competent skillsets. I make almost exclusive use of Apple hardware, but also regularly use a wide variety of software for producing or developing my comprehensive web, marketing, health and advocacy solutions.

1998-2004 **Black Press Ltd** Technical Generalist

From 1998 thru 2000 I worked at Island Publishers as a New Media Developer producing internet content and additionally providing support and maintenance, to a diverse digital infrastructure of more than a dozen News Group publications including Victoria News, Esquimalt News, Oak Bay News, and the Business Examiner.

In 2000 I was involved in a life-changing (and death-defying) car accident. This accident left me in a wheelchair and hemiplegic (unable to utilize the right side of my body) so I didn't attempt a return to work until 2002, but was caused ultimately to resign from Black Press in order to further regain my mobility in 2004.

1996-1998 **Island Publishers Ltd** Production Assistant

I started off working with a local publication in 1996 as Production Assistant and Technical Support, helping production, editorial and even sales staff in the publishing of the weekly publication Sooke News Mirror as well as providing support and maintenance for a diverse digital infrastructure.

// Education

2000 **High School Graduate** Edward Milne Community School
